Deputy Commissioner
Hassan District

Statement containing information called for in D

Name of the Taluk	How much of the lands under each head is — occupied & how much unoccupied.	Whether the whole of the dry area of 687 acres 28 guntas & 130 acres 20 guntas, shown against Channarayapatna and Holenarsipur Talukas respectively, is convertable into wet. If so, why the occupants have not as yet brought them under wet cultivation. Whether the 246 acres and 15 guntas have been classed as wet by the Survey Department.
1	2	3 4
Channarayapatna	Excepting the extent of 26-38 ac g shown under Banjar in the Statement in question the rest was all occupied during 1896-97.	The whole of the dry area of 687 acres 28 guntas is reported to be convertable into wet. In course of time the whole extent will accordingly be converted into wet by the ryots. N.O.
Holenarsipur:	As regards this Taluk the extent of lands shown under each head was all occupied unlike the figures shown against Channarayapatna. Those shown against this Taluk were all according to the jamabandy of the year 1897-98.	The Amildar reports that only a portion of the dry area can be brought under wet cultivation as the rest is of a higher level. This being a professional question the Executive Engineer Hassan Division has been requested to furnish information as to actual extent likely to be converted into wet.
